

## Oxide – high performance without compromise.

UltraGard Oxide is a hybrid high performance auto film. It combines a black charcoal layer with a proprietary alloy- oxide layer for improved solar heat rejection without compromising sensitive electronics, Sat Nav, GPS , mobile phone and radio reception.

Oxide presents excellent value with its combined performance and signal friendly characteristics. The enhanced heat rejecting properties of Oxide improves cabin comfort and increases air conditioner efficiency. It protects you, your passengers and your car's interior from the sun's intense heat and harmful UV Rays.

### Features

- Dark, non reflective charcoal-black colour
- Unique high performance alloy-oxide formula
- Signal-friendly with maximum solar protection
- Precision made with superb optical clarity
- Scratch resistant for enhanced durability
- Available in 10 performance shades
- Whole of Life Ownership Warranty

### Benefits

- Reduces intense solar heat
- Blocks dangerous UV rays
- Reduces interior trim fading
- Improves cabin comfort
- Controls annoying glare
- Increases glass safety
- Looks distinctively classy
