SAFE

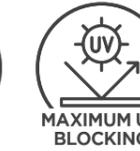

ENHANCED
VIEWS

LOWER ENERGY
COSTS

LOW HEAT
ABSORPTION

MAXIMUM UV
BLOCKING

Designed with a high reflective outer coating and dual purpose matched to a non-reflective ceramic internal layer, Synergy™ offers an attractive solution for large expanses of unprotected glass that require maximum heat reduction and superior solar protection.

The revolutionary ceramic internal layer minimises unsightly back reflections while enhancing your day and night window views. The high performance alloy layer reflects heat away from your windows with less radiant heat gain for improved room comfort and energy efficiency.

Synergy's choice of daytime privacy shades minimise glare and feature lower levels of heat absorption which provide compatible solutions for dual pane windows and other sensitive glazing.

Perfectly suited for Australia's harsh climate, Synergy's durable construction provides strong colour stability with extreme fading and corrosion resistance. Offering daytime privacy and problem solving shades, Synergy™ is available in a choice of performance options.

Synergy window film is fully backed by a comprehensive warranty offering many years of performance and protection.

FEATURES

- Innovative dual tuned construction
- High reflective outdoor appearance
- Providing excellent daytime privacy
- Non-reflective ceramic internal coating
- Enhances scenic views and night time visibility
- Filters damaging infrared and UV radiation
- Compatible with dual pane glass windows
- Supreme solar heat rejection, up to 82%

BENEFITS

- Helps lower yearly energy costs
- Reduces annoying indoor glare
- Improves tinted glass performance
- Safer option for sensitive glazing
- Protects against harmful UV rays
- Reduces fading of internal furnishings
- Crystal clear, distortion free adhesive
- Makes glass more shatter resistant

Synergy™ Performance Specifications

PRODUCT CODE	SG05	SG15	SG25	SG35
TOTAL SOLAR ENERGY REJECTED %	82	75	69	58
VISIBLE GLARE REDUCTION %	93	84	74	61
ULTRAVIOLET PROTECTION %	99	99	99	99
REFLECTION RATIO % <i>Internal/External</i>	14 / 65	21 / 47	17 / 40	14 / 25

Product performance data based on window film to 3mm (1/8") glass. Values are representative of typical production runs and are subject to normal manufacturing tolerances within industry standards.

Engineered for Vision, Comfort & Solar Protection

The solar filtering technology of UltraGard Window Films can make a distinct difference in maintaining the look and comfort of your home or building. Whether presenting a uniform appearance from the outside that is architecturally impressive, or helping to preserve the furnishings, product displays and other valuables within, UltraGard's diverse range of window films can provide an economical and energy efficient solution.

Ceramic Comfort Series window films are constructed with the latest in advanced ceramics and optically tuned nano-particle technology. Well known for their durability and thermal insulating properties, ceramic coatings provide a high quality shield for your windows and present a good opportunity to save, from the top to the bottom line.

Lifetime Residential or 12 Year Commercial Warranty

You're 100% protected Australia wide!

Enjoy absolute peace of mind, knowing that your UltraGard Window Film is guaranteed for as long as you own your home - against peeling, bubbling, cracking, changing colour or loss of performance in any measurable way.
